- With interchangeable welded iron strips (I series) or interchangeable PPN strips (IP series)
- Coupling for lifting forks

The broom sweeper M3 is suitable for the cleaning of large yards, industrial and market areas, and for the scrap collection. It can be fitted to any type of forklift or machinery. It is wear-resistant and completely recyclable. It is equipped with interchangeable welded iron strips (series I) or interchangeable strips in PPN (series IP), or in a reinforced version with thickness 8 mm with iron strips (IR series) with lifting forks.

OPTIONALS

	Spare kit - PPN strips	Spare kit - IRON strips
Frontal push blade	Containment sides
